Needless for me to utter about Melaka's cultural heritage and history, for it is known worldwide about its majestic wonders. Experience Melaka like no other when you immerse yourself in the essence of the historical state – from its red-brick Dutch colonial buildings to its uniquely enriching Jonker Street, Melaka is immaculately one-of-its-kind.

Recognized for its diversity, Melaka is home to one of the country's most premier resorts, Philea Resort and Spa. This piece of seventh heaven lies in the shade of forest giants as well as the faultless flow of waterfalls. Unlike other contemporary resorts, Philea Resort and Spa is constructed around secluded bays curled around pristine greenery. A profound sense of quietude permeates the resort for the guests. *'This is the privilege of Philea Resort and Spa - the privilege of peace, tranquility and ultimate relaxation'.*

Tagged as the largest and biggest log resort in Malaysia, Philea Resort and Spa is strategically located in fast developing Ayer Keroh – barely a minute away from the Ayer Keroh interchange of the North South Highway. Wholly owned by Majestic Hotels & Resorts Sdn Bhd, Philea resort captures the nostalgic elegance of an age where quality and service were a way of life.

Bespoke furniture merges with the beauty quality pine log and railway sleepers that pave the way to an environment that is both beautiful and comfortable. Philea Resort and Spa offers three varieties of rooms to suit different needs – *The Pavilion Villa* features individual patios in its lower rooms while upper floor rooms include private balconies with panoramic views of the resort's landscaped gardens.

*Philea Suite* attributes a spacious built-up area complete with an exquisite bathtub and it's located in the core of the valley, presenting stunning views of the landscaped pool and
