Eco indulgence

The new 5-star **Philea Resort & Spa** is one of the most eco-friendly places in Malaysia at the moment. It was built entirely using only natural materials found within the country: 8,000 pieces of disused railway sleepers for the staircases leading to the rooms; more than 6,000 tonnes of marble, all the way from Perak; shipwrecks recycled into furniture in the lobby. To get from your cabin to the surrounding pool, reception and restaurant areas, just call for an electric buggy.

Philea proves to be as luxurious as it is green: There are five grand food and beverage outlets to satisfy your food cravings, and a well-appointed spa providing world-class treatments. For recreation, there is an outdoor landscaped pool, gymnasium, games room and a pillarless ballroom which can accommodate 600 people comfortably at one go.

Lot 2940 Jalan Ayer Keroh Off Jalan Plaza Tol, Ayer Keroh, Melaka
