Egg free, peanut free, crustacean free diet. Some are gluten free too.

Any of your kids need a special diet? Maybe they have a food allergy or if you are on a vegetarian diet? Consider dining and staying at Philea Resort if you happen to want to visit Melaka this coming school holidays.

As many of you know, my 2nd child has severe food allergies thus there are many things he can't eat when we are out. Usually, I would pack my Thermomix with us to cook at hotel rooms but the Philea restaurant head chef assured me they will be careful about cross contamination, and so while we were there, my son ate like a normal boy dining out which is often so rare! I'm really grateful because my son was so happy and mommy gets to rest because I usually have to cook 3 meals a day because of him. I'm so grateful, I have to tell everyone who is in the same shoes as me.

Go stay there.

And I love the wooden chalet too 😊

My kids, hubby and I are in Melaka because I am on a Thermomix working holiday. We decided to stay at Philea Resort because my friend Mei Fong works there. This whole place is a perfect 'homeschooling' activity for my kids, like did you know the entire reception counter is made from a sunken ship? Like how awesome is that.

I'll be showing my kids videos on sunken ships soon.
